3-1/2" HIGH PRESSURE FRAMING COIL NAILER

Innovative high pressure technology enables nailer to operate at 320 PSI for more consistent flush nailing

PERFORMANCE

"Tool-less" depth adjustment engineered for more precise flush and countersink nailing

EFFICIENCY

Two-mode selector switch allows operator to select sequential or contact driving options

CAPACITY

High capacity canister holds up to 300 nails for high production applications

MORE POWER. LESS WEIGHT.

3-1/2" HIGH PRESSURE FRAMING COIL NAILER

Model AN911H

FEATURES & BENEFITS

- Superior power-to-weight ratio: up to 30% less weight and up to 30% smaller than conventional framing nailers
- "Tool-less" depth adjustment engineered for more precise flush and countersink nailing
- Two-mode selector switch allows operator to select sequential or contact driving options
- High capacity canister holds up to 300 nails for high production applications
- Drives standard wire collated nails for more versatility
- Easy-load nail canister with nail size adjustment base for increased productivity
- Aggressive nose spurs for more controlled toenailing applications
- Tool hook allows tool to remain close-by
- Metal exhaust housing cap for longer tool life
- Rubberized handle for better fit and added comfort
- See-through nail canister indicates when tool needs reloading
- No-mar tip engineered to prevent damage to material
- Large rubberized bumpers for added durability
- Includes high pressure fitting

STANDARD EQUIPMENT

- No-mar Tip (424136-5)
- Safety Goggles (192517-8)
- Oil Supply (194381-3)
- Tool Case (824792-5)

SPECIFICATIONS

Operating air pressure	180 - 320 PSI
Nail size	1-3/4" to 3-1/2"
	.113162 shank diameter
	Wire collated
Magazine capacity	150 - 300
Dimensions (LxWxH)	11-1/2" x 4-7/8" x 12-1/2"
Net weight	5.1 lbs.
Shipping weight	11.0 lbs.
UPC Code	088381-079761

OPTIONAL ACCESSORIES

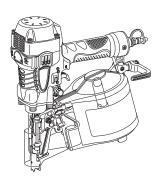

■ 50' High pressure contractor hose (B-80014)

■ 100' High pressure contractor hose (B-80020)
